

Pelikan

Classic and modern vintage fountain pens. ***Period 1936 - 2006***

In 1950, the model 400 was launched. With its green-striped sleeve, it has become a worldwide symbol for the Pelikan brand. Technical refinements have been made to keep this beautiful fine writing instrument completely up to date. In all other respects, however, it remains faithful to the original. The Pelikan Souveran 400 fountain pen measures 0.46 inches across equating to slightly narrower than the standard diameter fountain pen. This handcrafted, finely engraved 14k gold nib with rhodium decoration point. Stresemann strip pattern in green or blue. Uses bottled ink only.
